

Pre-event information

Event centre

The event centre is located in Harju County, next to Kuusalu Secondary School and the sports hall. GPS coordinates: 59.451, 25.418.

Parking

Parking is available in the car parks of Kuusalu sports hall and secondary school and on the grass areas around the sports hall.

Changes to teams

Changes to team composition may be made only in accordance with the event regulations.

Team bib numbers

The team bib number is the same as the team ID number assigned at registration. ***Please bring your own safety pins to attach the number bibs!*** The organisers have only a limited number of spare safety pins.

Event materials

Number bibs, wristbands and rental SI cards can be collected from the secretariat before the maps are distributed. You can also clear your SI card there. Rental SI cards provided by the organisers have already been cleared.

Map distribution begins at **9:00** for the 8-hour rogaine and at **11:00** for the 4-hour rogaine. Teams assigned a GPS tracking device will receive it with the other event materials. **The event maps are printed on water- and tear-resistant material.** Each participant will also receive an additional **paper map** for route planning.

SportIdent (SI) punching

Please check that the SI card number shown in the start list is correct. Notify the organisers of any change to an SI card number as soon as possible. **The SI stations operate in contactless SI AIR mode.** *Important: Competitors are responsible for ensuring that their SI AIR card has enough battery capacity for the 8-hour rogaine. If an SI AIR card battery runs out, the organisers cannot guarantee the team's result. If you are unsure about the battery capacity or do not want to keep your SI AIR card active for eight hours, you can disable the SI AIR function after using the CLEAR and CHECK stations. A few stations marked SIAC OFF will be located near the start. You must then punch at control points in the conventional way by inserting the SI card into the station. Do the same if the SI AIR card does not produce an audible and visual signal at an SI station.*

To score points for visiting a control point, all team members must punch at that control point's SI station within **60 seconds**. **After punching, competitors must move away from the SI station immediately.** This is also important to prevent an SI AIR card from recording repeated punches at the same control point.

Start

The start is from the designated start area on the south side of the new Kuusalu Secondary School building. The start area opens at **9:40** for the 8-hour rogaine and at **11:40** for the 4-hour rogaine. All members of the team must enter the start area together. When entering, punch at the **CHECK** station. This also activates contactless mode on SI AIR cards. Some rental cards are SI AIR cards and others are standard SI cards. Passage through the start will be verified using the punch recorded at the start gate.

Out-of-bounds areas

Areas marked on the map with red hatching (the Tallinn-Narva highway, quarry areas, fields and the surroundings of some properties), together with private yards marked in olive green, are out of bounds. Any team entering an out-of-bounds area will be disqualified.

Finish

The Finish stations are located by the finish flag on the south side of the Kuusalu Secondary School building. All team members must punch at a Finish station. The team's finish time is the time when its last member punches. At the finish, officials will check that each wristband is intact and then remove it. Each team member must then download their result and will receive an SI printout. Rental SI cards and GPS tracking devices must be returned at the finish.

Prize-giving

Prize-giving for the 4-hour rogaine starts at **16:30**, and prize-giving for the 8-hour rogaine starts at **18:30**.

Catering

Catering is provided in the Kuusalu Secondary School canteen. Please leave outdoor footwear by the entrance before entering the canteen. Catering starts at **15:00**. The menu includes soup, a savoury pastry and a sweet bun, a curd snack, tea, coffee, fruit drink and flavoured water.

Toilets

Competitors may use the toilets at Kuusalu Sports Centre (2 men's and 2 women's toilets). There are also six portable toilets near the car park.

Washing

After the event, showers are available at Kuusalu Sports Centre. A 20-minute ticket for the shower and sauna costs EUR 3. You can also use the swimming pool; a one-hour ticket costs EUR 6.

Emergencies

Competitors participate at their own responsibility. In the event of injury or another emergency, call the organisers on 56159998. In the event of an accident, call 112.
